

Feed-in Tariff Switch Request Form

I am applying to switch my Feed-in Tariff payments to British Gas from another FiT Licensee.

How to make a successful application

Please make sure you send all the information requested below with your application.

Please ensure that all information supplied matches the details provided exactly as held by your existing provider.

Your application form needs to include:

A Generation and/or Export Meter Reading We need an accurate, up-to-date meter reading to set up your account.

What you need to do

Please scan and email your documents to us at feedintariff@britishgas.co.uk

Please note that there is a 5MB limit for emails and you may need to send separate emails if the files are too large.

Or you can post them to British Gas, Feed-in Tariff Team, Winnall Down, Alresford Road, Winchester, Hampshire SO21 1FP.

How long will it take to switch my account?

It may take up to 28 days to get you registered after we get your fully completed application.

What happens if I don't send everything in?

If anything is missing, the date your new Feed-in Tariff can start will be delayed, and we'll also need a new meter reading to get your account up and running.

If you have any queries about our Feed-in Tariff just give us a call on 0333 202 9483*

British Gas is a mandatory Feed-in Tariff licensee.

If you are hard of hearing or speech impaired and use a text phone, please call 18001 0800 072 8626.

† NOTE If you have a solar PV installation that is eligible for Feed-in Tariff payments, on or after 1st April 2012 the amount of Feed-in Tariff payments you will be entitled to receive will depend on the energy efficiency rating of your property. Without this document you will still receive Feed-in Tariff payments but at a lower tariff.

If you choose to return the application to us via email or post, the application needs to be completed and returned on the date the installation was commissioned. If your application is received after your commissioning date you may be required to provide a further reading to be used to register your account. The fastest way to register is to send your application to feedintariff@britishgas.co.uk

* We may record calls to help improve our service to you. Calls to 0800 numbers are free. Call charges to 03 numbers will cost no more than 01 or 02 numbers, please check with your phone provider.

Generation Equipment Details

For more information relating to your Total Installed Capacity (TIC) or Declared Net Capacity (DNC) you will need to contact your installer.

Technology (e.g. PV, MCHP, Wind, Hydro)	<input type="text"/>
For PV total number of panels installed	<input type="text"/>
For PV individual wattage of panels (kW)	<input type="text"/>
Total Installed Capacity (TIC), kW	<input type="text"/>
<small>NB. The Total Installed Capacity of a PV installation is determined by multiplying the number of panels by the individual wattage of the panels. For example, 10 panels at 200 watts would give a total installed capacity of 2,000kW.</small>	
Declared Net Capacity (kW)	<input type="text"/>
Does the installation have co-located storage (battery storage) facilities?	Yes <input type="checkbox"/> No <input type="checkbox"/>
If Yes, please provide the date the co-located storage facility was installed	<input type="text"/>
<small>NB. We may contact you to request any additional documentation required to assess the impact of generation and export payments. Documents requested may include, but are not limited to, the Schematic Line Diagram which can be obtained from your installer.</small>	

Generation Meter Details

Generation Meter Serial Number	<input type="text"/>
Number of digits on meter (5 or 6 before decimal point)	<input type="text"/>
Generation Meter Reading (On the date application sent)	<input type="text"/>
Manufacturer of meter (e.g. Elster/Landis&Gyr/GEC)	<input type="text"/>
Model Number	<input type="text"/>
Meter Location	<input type="text"/>
Remote Reading/Automatic Meter Reading Functionality?	Yes <input type="checkbox"/> No <input type="checkbox"/>

Export Meter Details

If you do not have an Export Meter and your installation is lower than 30kW then you will receive deemed export payments from British Gas Feed-in Tariff unless you indicate 'no' in the details below. If your installation is larger than 30kW and you require export payments from British Gas Feed-in Tariff, you must have a compliant half hourly Export Meter installed and registered to British Gas.

Do you require export payments from British Gas? (Installations above 30kW)	Yes <input type="checkbox"/>	No <input type="checkbox"/>
Do you have an Export Meter?	Yes <input type="checkbox"/>	No <input type="checkbox"/>
Export Meter Serial Number	<input type="text"/>	
Number of digits on meter (5 or 6 before the decimal point)	<input type="text"/>	
Export Meter Reading (On the date application sent. Please see checklist for full details)	<input type="text"/>	
Manufacturer of meter (e.g. Elster/Landis&Gyr/GEC)	<input type="text"/>	
Model Number	<input type="text"/>	
Meter Location	<input type="text"/>	
Remote Reading/Automatic Meter Reading Functionality?	Yes <input type="checkbox"/>	No <input type="checkbox"/>

By completing this form I confirm I would like British Gas to be my Feed-in Tariff supplier.
